SPD Daily Report - 30 August 1973

In an effort to break loose a decision in the IC Staff on the subject of the size and makeup of military detailee staffing, we have delivered to the DCI Admin. Officer a memorandum for coordination and concurrence by the IC Staff and DCI/Admin. This memorandum is from the Director of Personnel to the DD/M&S and describes the Agency's need for additional military quota in order to satisfy IC requirements and recommends that the DD/M&S sign a memorandum (which is supplied for him) to the Department of Defense on this subject. The DOD is not fighting us on the subject of increased quota. Our impression is that they are ready to accede to our request for 24 military spaces but they simply want a piece of paper and they want to be able to identify our specific requirements for the IC Staff.
